Skewer stick

string

Streamers (optional)

Tape

Single hole puncher

- Color a kite coloring page (attached)

- Will the wind blow it – checklist – science experiment!
(attached)

Kelli's Occupational Therapy Corner

I was very excited by this week's theme - wind. It is a wonderful opportunity to work on our oral motor development. I had a lot of fun finding these videos of oral motor fun with items you have at home like craft pom pom balls, straws, painter's tape, spatulas, playdoh and paint. Have fun with these! Oral motor development refers to the use and function of the lips, tongue, jaw, teeth, and the hard and soft palates. The movement and coordination of these structures is very important in speech production, safe swallowing, and consuming various food textures.
