Five Surprising Benefits of Water Play!

Water play is hugely popular with children and it's a fantastic way to keep them occupied during the summer months. It can take many forms whether it be bath play, pool play, water table play or simply splashing around in a bucket on the pavement! However contrary to popular belief, there is much more to water play than just splashing! Water play can have many important benefits for a child's development, in a number of different areas. The benefits of water play will also be very helpful to a child who is starting preschool or primary school this September.

1. **Problem solving skills**
2. **Physical development**
3. **Basic mathematical skills**
4. **Language development**
5. **Social and emotional development** (Excerpt from [Five Surprising Benefits of Water Play!](#))
